

gst_join_pad_init

```
graph LR; A[gst_join_pad_init] --> B[gst_join_pad_reset]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'gst_join_pad_init'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'gst_join_pad_reset'.
